PROFESSIONAL EXPERIENCE

Garrett Advancing Motion

Global Commodity Manager | Actuation & Sensing

Current Job from Oct'25

- Define & execute global sourcing & commodity strategies for Actuation & Sensing portfolio, ensuring cost competitiveness, supplier performance, quality excellence & supply continuity across global operations.
- Lead strategic commercial negotiations with global suppliers and drive material cost (MATEX) savings.
- Lead complex commercial negotiations involving pricing, long-term agreements, payment terms, foreign exchange exposure, contractual terms & conditions, supplier capacity & supply risk mitigation to maximize commercial value & business resilience.
- Own Annual Operating Plan (AOP) for commodity & drive global MATEX cost-reduction initiatives through value engineering, supplier optimization, localization & strategic sourcing programs.
- Partner closely with Engineering, Finance, Quality, Manufacturing & Operations teams to support new product introductions, new supplier development, cost optimization, risk management & profitable business growth through effective sourcing execution.
- Lead & mentor geographically distributed global procurement team, ensuring alignment with global sourcing strategies & business objectives.

Garrett Advancing Motion

Global Pricing Manager (Sales)

June'23 to Oct'25

- Led global pricing portfolio through strategic transactional pricing initiatives, value-based pricing & commercial pricing governance.
- Led end-to-end inflation recovery (Cost-to-Pricing) by developing & implementing dynamic financial models covering raw materials, energy, freight, FX & volume compensation, ensuring timely quarterly & annual cost pass-through while protecting business margins.
- Partnered with Global Sales teams during annual & periodic customer price negotiations by providing pricing analytics, commercial insights, customer-specific recovery strategies & fact-based pricing recommendations to maximize inflation recovery & profitability.
- Collaborated with Finance, Sales, Customer Service, Operations & Engineering to execute global pricing actions, ensuring alignment with commercial objectives, customer contracts & business profitability.

- Drove pricing governance by ensuring compliance with Delegation of Authority (DOA), pricing approval workflows, contractual obligations & audit requirements while preventing margin leakage through structured commercial controls.
- Supported SAP pricing implementation by validating pricing conditions, effective dates, customer master data, currencies, BOM integrity & pricing accuracy before commercial execution.
- Performed periodic P&L analysis to identify cost escalations, profitability gaps & margin improvement opportunities, recommending proactive pricing actions to protect financial performance.
- Developed executive dashboards, quarterly business reviews & management reports to monitor inflation recovery, pricing performance, revenue realization, commercial KPIs & margin improvement initiatives.

Garrett Advancing Motion

Global VE (Value Engineering)/Re-sourcing Manager

Dec'18 to May'23

- Led Global Value Engineering (VE), Re-Sourcing & Make vs. Buy portfolio across Asia, Europe, North America & Brazil, managing cross-functional projects from opportunity identification through customer implementation.
- Drove Annual Operating Plan (AOP) cost-reduction initiatives by identifying value engineering opportunities, tracking project execution & ensuring timely achievement of regional & global MATEX targets.
- Developed financial business cases using Payback Period, Net Present Value (NPV), ROI & Total Cost of Ownership (TCO) analysis to prioritize value engineering & sourcing initiatives, maximizing profitability & investment returns.
- Partnered with Global Supply Base Management teams to execute strategic re-sourcing, supplier consolidation, localization, "India for India", "China for China" & E2W initiatives, improving supply resilience, regional competitiveness & total cost performance.
- Served as key member of the Global Supplier Selection Committee, evaluating sourcing strategies, supplier capabilities, commercial proposals & localization opportunities to optimize cost, quality, delivery & long-term supply continuity.
- Developed & executed Value Engineering roadmaps by identifying alternate materials, manufacturing processes, design optimization & sourcing strategies while collaborating with Engineering, Quality, Manufacturing & Procurement teams to ensure successful project implementation.
- Led commercial negotiations with strategic suppliers to secure cost reductions, productivity commitments, & long-term supply agreements while mitigating commercial & supply chain risks.
- Prepared & managed Annual Operating Plan (AOP) budgets, financial forecasts & executive management reviews for VE & MATEX programs across regions, commodities & customer portfolios, ensuring alignment with corporate profitability objectives.

Honeywell

Procurement Manager | July'14 to Nov'18

Supply Base Analyst | Dec'11 to June'14

- Conducted techno-commercial evaluations, supplier negotiations, and provided strategic recommendations for supplier panel decisions, localization projects, and NPI sourcing.
- Managed sourcing of casting & machining parts, turbo parts, compressors, center & turbine housings.
- Obtained and analyzed quotes, finalized pricing, payment terms, lead times, negotiated prices, and ensured productivity targets were met.
- Achieved Gross Matex targets in alignment with AOP/STRAP for both domestic and consolidated operations.
- Costed finished products in line with "should cost" standards, detailing raw material, packaging, and manufacturing costs separately.
- Led FPS/DBK saving projects, executed OTTR, PPM, and ECN processes for regular production programs.
- Collaborated with the SCM team to address critical material shortages, supported the Quality team for PPAP & COPQ, and worked with the RCCP team on monthly and yearly supplier capacity analysis.
- Delivered monthly COPQ status reports to leadership, highlighting recovery percentages versus AOP and the recovered amounts.
- Published global FM direct supplier spend reports, including EMR%, consignment analysis, WAPT, spend by supplier group, plant/company, region, and country of origin.
- Assisted SBM with master data maintenance, managed PO/SA, PIRs, source lists, and PICA management; analyzed and developed reports for existing mass programs in SAP with NTT team support.

Larsen & Toubro

Asst. Manager | Direct Material procurement | Jan'10 to Dec'11

Sr. Engineer – Indirect Procurement | Feb'08 to Dec'09

- Sourced hot and cold extrusion components, bars, flats, and copper profiles from Thailand and Malaysia, utilizing London Metal Exchange (LME) rates.
- Conducted quarterly cost comparison analysis for raw material suppliers, including weighted average matrix, FX impact, LME forecast, and opportunity cost strategies.
- Managed capital and project procurement, including both import and indigenous procurement, adhering to foreign trade policies such as EPCG and STPI.
- Issued RFIs/RFQs, obtained quotations, and clarified supplier proposals with a focus on quality, delivery, and cost.
- Ensured procurement compliance with statutory requirements, including bank guarantees, PBG, L/C, payment retention, and LD clauses.

TATA Motors

Service Support Engineer - Indirect Procurement

Aug'07 to Feb'08

- Managed procurement of capital items, machinery, equipment, and services; conducted e-bidding and detailed processing for negotiations using the Ariba e-bidding tool.

Mahindra Ugine Steel Co. Lts

Graduate Engineering Trainee – Direct Procurement

Sep'06 to Aug'07

- Sourced and costed stamping and sheet metal components for the Mahindra NBP tractor model; supported the Farm Equipment Sector (FES) team in new product development and led techno-commercial negotiations.
